Your signature indicates that you have read, understood & agree the terms below and the pricing issued on this sheet for the minimum contract period of 12 months.

It is your obligation to insure excessive/unexpected usage is not caused by automated update software; An example of this is windows update. Please ensure this and other programs have their automated update functions switched off.

All costs, however incurred, from connected equipment both wired & wireless to the system are your responsibility.

NB Under no circumstances should any wireless access point (or similar) be connected without suitable encryption enabled.
